

## Safety

## Mia Fuchs Q2

This is your responsibility.  
In times like these we need humanity.  
But humanity does not mean contact,  
it is the ability to react.

Now you have to stay  
because otherwise someone else will pay.  
The best idea for instance  
is just to keep your distance.

At home is where you should be,  
maybe watching some TV.  
Chill at home and bake some pies  
trust me it'll save many lives.

Think of the ones you love  
and how their spark could fly away like a dove.  
Disappearing into the dark,  
Now, where is that so-called spark?

It is gone.

When this is over  
it'll be like a four-leaf clover.  
There will be luck and happiness.  
that will carry us.  
Through hardships that'll torture us  
it'll always be close to us.
